Attention: The Honourable David Eby, KC, MLA, Premier of British Columbia
Honourable Lisa Beare, Minister of Education and Child Care

SUBJECT: We Demand Action on Education

Premier Eby and Minister Beare:

You were elected on the back of promises to address the mental health crisis among BC students and to invest in education. Now is the time to come good on those promises. Teachers provide a crucial service which can help our province to address these crises and improve conditions for students in BC classrooms. You are bargaining with teachers right now and we demand you use this opportunity to invest in BC's children. You promised a full-time counsellor in every school and an Educational Assistant (EA) in every classroom. Beyond this you must improve ratios for resource, speech and language, librarians and other non-enrolling teachers. You can lower class sizes, you can provide laptops to students, you can invest in public education. We demand that you do these things, BC's students deserve it, BC's teachers want to partner with you to provide it, and BC's public will not forgive you if you do not.

Yours,
(*Your name*)
